Service Offering

Marietjie Keet Auctioneers offers the best of both worlds to clients who wish to sell their properties, be it because they are:

- Re-locating;
- Up-sizing to larger premises;
- Down-sizing to retire;
- Settling a divorce;
- Disposing of a deceased estate; or
- Simply no longer able to afford their bond payments.

Auctioning is an elegant solution that:

- Targets the appropriate market for the property;
- Realises the true value of the property;
- Cuts down the tedious process of 'showing' the property to prospective buyers;
- Substantially reduces the time taken to sell the property; and
- Provides a win-win result for sellers and buyers.

Business is conducted in both real-world and on-line environments, with the advanced technology behind the company website facilitating listing of properties and effects, registration of bidders and bidding.

The large number of properties auctioned each month bears testimony to the company's innovative and successful multichannel marketing approach.

Experience

In 1988 Marietjie Keet launched and successfully grew a traditional estate agency business which she converted during 2003 into a first generation auction house.

In 2012 Marietjie completed the Certified Auctioneers Institute (CAI) designation, the highest recognition of the National Auctioneers Association (NAA) awarded to any member. Marietjie Keet Auctioneers specialises in the auctioning of Real Estate, and Commercial and Industrial Property. The business is equipped with the latest information technology to serve clients to the best effect and a vast client database which ensures widespread advertising.
